1. DATE - TIME GROUP Dec. 66 0627Z		2. LOCATION New York City, New York two witnesses	
3. SOURCE Civilian		10. CONCLUSION Aircraft(possible)	
4. NUMBER OF OBJECTS One			
5. LENGTH OF OBSERVATION few minutes			
6. TYPE OF OBSERVATION Ground Visual		11. BRIEF SUMMARY AND ANALYSIS  Two observers reported an object that had two lights one at either end. The object turned right once then turned straight again when it was further away. When the object passed the observers it was no further than a block away and was crusing too slow to be a helicopter.  The information submitted was from the witnesses mother. The two boys told their mother what they saw and she wrote to the Air Force. The description is consistent with that of an aircraft observation.

and much to low. It made a  
rough humming like  
round. It didn't resemble a saucer  
in any way. It went out of  
right eye then ran between 317 and  
315 (a little yard) and a glimpse of  
it we then ran to a parking  
lot between 315 and 311 But it had gone  
before it was gone the noise it was  
making grew. We and my Brother  
~~\_\_\_\_\_~~ would not like  
any publicity at all.

P.S. Could you send me  
information as to where I can  
go to get books concerning cases  
such as mine

Thank you

December 14, 1966

Dear Sir

I would like to make  
a Report of a strange sighting  
made by me and my Brother.  
We were standing in front of  
306 (Building) at about 1:27, it  
was cool and a little bit windy.  
my Brother called my attention to  
it, at first it was coming straight  
(Looking straight at it) it was about  
over Saint Nicholas Terrace, it  
had a large light at the left and  
one about half that size at the  
~~left~~ Right. it turned Right once  
then turned straight again when  
it was further away. (until then we  
thought it was a jet) When it  
passed us it was no further than  
block away no higher than ten  
stories and was moving much  
too slow to be a helicopter.
